Thomson ONE Investment Management is the premier research and portfolio management solution from Thomson Reuters. This powerful real-time application delivers a broad and deep range of financial content and insight that expands your understanding of global financial markets. And, with our integrated portfolio analytics capabilities, you can perform in-depth analysis of your portfolios versus indices, sectors, industries, and custom benchmarks. We provide direct, unfiltered access to industry-leading sources of financial information and analytics, all in a fully integrated workspace designed to help you better analyze your investable universe and monitor your holdings. We also provide effortless integration of this content into your proprietary Microsoft® Excel spreadsheets.

ACCESS WORLD-RENOWED THOMSON REUTERS CONTENT SOURCES
In a single application, Thomson ONE Investment Management provides a robust lineup of world-class Thomson Reuters content, including:

- **First Call Notes and Research** – real-time morning notes and global equity and fixed income research reports from more than 700 brokers and independent research contributors
- **First Call and I/B/E/S Analyst Estimates** – the world’s most comprehensive database of analyst estimates, both detailed and mean/median, featuring up to 28 forecast measures for more than 20,000 companies
- **StarMine Analyst Ratings and SmartEstimates** – performance analysis on nearly 7,000 sell-side analysts, and quantitatively derived estimates that help predict surprises
- **I/B/E/S Global Aggregated Forecast Data** – includes country, sector, industry and index levels
- **Reuters Fundamentals and Worldscope Company Data** – covers 50,000 active companies (16,000 inactive) in more than 110 countries going back to 1980
- **StreetEvents** – the most comprehensive and accurate corporate disclosure information, including events, transcripts, briefs, and guidance
- **Reuters Markets News** – accurate, timely, and objective financial and economic news from over 2,400 journalists around the world
- **DataStream Macroanalytics** – over 140 million time series and up to 50 years of history covering 175 countries for economic, commodity, index data and more
- **Reuter Insider** – a wide range of multimedia content that delivers unique market, industry, and company insight
- **Fixed Income and Credit Analysis** – comprehensive bond, CDS, and index data, including terms and conditions, real-time pricing, risk measures, and more

deeper understanding of historical trends with Datastream Charting. This powerful functionality allows you to investigate the correlations and relationships of any set of time-series data from Datastream, including global economic indicators and asset classes.

**Monitor for negative developments and uncover new investment ideas**

With the flood of new equity information released every day, StarMine’s predictive equity analytics help you pinpoint pressing developments that demand your immediate attention. StarMine also helps you more effectively screen for new ideas. With StarMine you can:

- Identify the top-performing analysts on every stock and industry
- Predict earnings, revenue, and cash flow surprises
- Anticipate future analyst revisions
- Uncover earnings sustainability issues
- Generate more reliable growth estimates and intrinsic valuations

**Broaden your understanding of the credit markets**

Our integrated credit analysis tools enable a cross-asset class relative value perspective, and help you better evaluate a firm’s capital structure. Our powerful capabilities allow you to:

- Screen a broad universe of bonds, credit default swaps, and indices
- Perform time series analysis of prices, volatility and spreads with sophisticated charting tools
- Link and compare corporate bonds, credit default swaps, and the related equity
- Analyze yield curves, credit and maturity profiles, and access fixed income terms and conditions

**INCREASE YOUR EFFICIENCY AND CONNECTIVITY**

Optimizing efficiency is a challenge for every professional investor. Thomson ONE Investment Management addresses this challenge by linking your workflow together in several ways.

**Extend the power of your proprietary spreadsheets**

Spend less time managing data with Thomson Reuters Spreadsheet Link. Our workflow-centric solution brings our world-class historical and real-time data into your spreadsheets, enabling more robust portfolio analysis. Spreadsheet Link also allows you to:

- Build custom templates, or access pre-built models from our template library
- Set precise screening criteria and have results delivered automatically
- Create unique data items or expressions with our Expression Builder
- Efficiently upload portfolio and shares held information to Thomson ONE

**Communicate and collaborate in real time with peers and counterparties**

Thomson Reuters Messaging provides instant messaging and topic-focused chat rooms that put you in touch with a trusted, global community of over 100,000 financial professionals. In addition, our integrated research management system provides a central repository of all investment decision related information where your team can search for, annotate, and share intellectual capital across the firm.

**Stay on top of your portfolios anytime, anywhere**

As a companion to the desktop, Thomson ONE Mobile delivers estimates, events, financials, news, quotes, alerts and portfolio intelligence to your BlackBerry®. In addition to the above, Apple iPad users can access entitled broker research and intraday portfolio contribution with our intuitive Thomson Reuters Marketboard app. Now you can stay connected to the critical information you need, even when you’re on the move.
